fastvue

Safeguard students online

Monitor your school's internet usage for students accessing harmful online content and conquer KCSiE and Prevent duty requirements.

Monitor Student Wellbeing

If a student searched for 'Easist ways to kill myself', would you know? Easily identify students engaging with high risk content such as suicide, self-harm, extremism, violence, and more.

Improve Digital Citizenship

Get the visibility you need to discover the students that engaged, or did not engage with harmful or inappropriate content that may be circulating around the school.
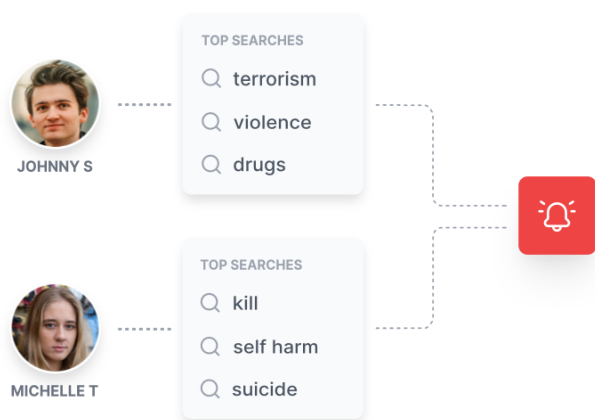

Reduce the IT Burden

Stop wasting IT resources sifting through undecipherable logs. Schedule automated reports and alerts for safeguarding staff, heads of year, principals and teachers.

Get the visibility you've been missing

Identify internet usage issues as they happen and keep your students, staff, and network safe.

Critical safeguarding alerts

Send time-sensitive alerts, such as students searching for suicide or self-harm directly to Digital Safeguarding Leads in real-time as soon as the incident occurs.

Report on student groups

Easily segment and schedule reports for any student group. Heads of Year can receive web usage reports for their own year group, highlighting suspicious searches, unacceptable websites, and YouTube videos watched every day, week, or month.

Keywords

Fastvue's extensive, customisable, and continuously updated keyword database flags suspicious activity related to suicide and self-harm, extremism and radicalization, racism, drugs, pornography, and profanity, without the false positives.

    suicide

- commit **suicide**
- ✓ **suicide** prevention ribbon
- painless **suicide** methods
- ✓ **suicide** squad
- ✓ **suicide** exercises

Activity timeline reports

Comprehensively monitor student internet usage to see exactly when and for how long students have engaged with specific online content throughout the day.
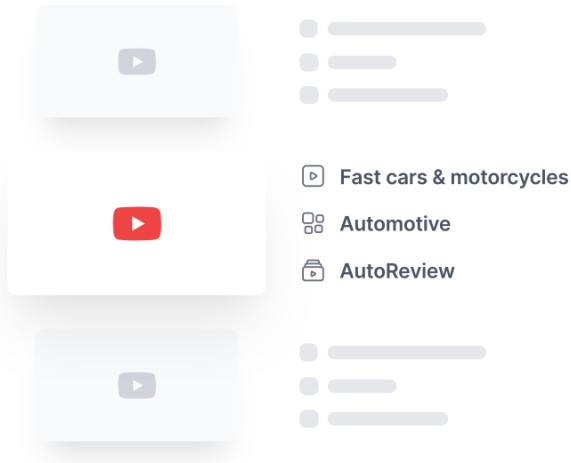

Nasty video

Jane W   12:10 - 12:32

Steven M   12:16 - 12:24

Robert B   12:23 - 12:35

Digital citizenship

Can your students navigate their digital environment safely? Easily assess a student's digital citizenship by assessing their productive and acceptable content alongside unproductive and unacceptable content.

YouTube monitoring

Keyword matching on YouTube video titles lets you easily discover videos that may be inappropriate in your school, along with which students spent time watching them, and how long.

Your school. Your data.

Fastvue Reporter is self-hosted in your own private cloud or on-premises. We never see your sensitive internet or network traffic data.

KCSiE / Prevent requirements

Satisfy the 'appropriate monitoring' requirements set out by the KCSiE guidelines, Prevent duty and the UK Safer Internet Center.

- Illegal content
- Bullying
- Child Sexual Exploitation
- Discrimination
- Drugs / Substance abuse
- Self Harm
- Violence
- Suicide

IT, network, and security reports

Designed for the IT team, these reports highlight bandwidth issues, identify threats detected, summarise VPN activity, and make it easy to find firewall policies responsible for blocking or allowing traffic.

Designed for the world's leading firewalls

Don't compromise on security or network performance. Fastvue's safeguarding solutions are purpose-built for the world's most advanced firewalls.

Don't take our word for it

Stonyhurst College

Fastvue Reporter is able to intelligently interpret the firewall's log files and produce clear reports that can be sent to safeguarding officers in real-time or on a schedule. An independent school inspectorate were completely blown away by the reporting data, incorporating all the lists required to comply with the Government's KCSiE guidance.

Paul Wilmore
Director of Technical services

Hale School

Having Fastvue handle the reporting piece was an absolute god-send. It meant we were able to choose a best of breed security solution without compromising on our pastoral care reporting. The self-harm alert in particular is very important that it gets to the key pastoral staff in a timely manner.

Rob Barugh
Director of Learning Technologies

Duncraig Senior High School

Fastvue Reporter has bought us visibility and that was the key thing we really wanted. Now we have it, we can much better attend to our online safeguarding responsibilities at the school. Knowing exactly how long a student has watched a video or engaged with some online content provides critical insight into a student's digital citizenship.

Michael Raymond
Technology and Communications Manager

We're a proud partner of the Internet Watch Foundation

Fastvue is proud to partner with the IWF to detect web searches and other online activity involving child exploitation within organizations, notifying the right people if and when they occur.
